INTRODUCTION

Going to a college or university is a critical step, but one can greatly enhance their classroom learning by gaining real world experience through college student internships. In addition to gaining great experience to complete our classroom and landing the ideal job upon graduation.

OBJECTIVES

The BSc. CSIT internship program is designed to develop professional skills among students and help them become familiar with the working environment.

First Problem

Have access to a wide range of restaurants, each offering their unique cuisines and specialties.

Second Problem

Flexible delivery options enable users to schedule their deliveries at their convenience.

ABOUT ORGANIZATION

1

Suktas Inc. Pvt. Ltd. is an Information Technology company incorporated on 2010. It is a Software development company based in Biratnagar, Nepal.

2

The company is engaged in developing custom softwares for Corporates, Retail, Travel, Infotainment, and various other major industries for Web, iOS and Android platforms, and so far we have developed more than 10+ apps for different platforms.

3

It has a team of highly skilled professionals who are dedicated to providing the best services to our clients. It has a team of experienced developers, designers, and project managers.

PROBLEM STATEMENT

● Problem 1

- The service was limited to customers who can physically visit the restaurant or food establishment.

● Problem 2

- Lack of a delivery option puts the business at a significant disadvantage compared to competitors.

SCOPE

The scope of a Flutter project includes developing cross-platform applications for mobile, web, or desktop environments. It involves defining features such as user authentication, data management, real-time updates, geolocation services, payment integration, and multimedia capabilities.

SYSTEM ANALYSIS

● Phase 1

Requirement Gathering

● Phase 3

Estimation and Planning

● Phase 2

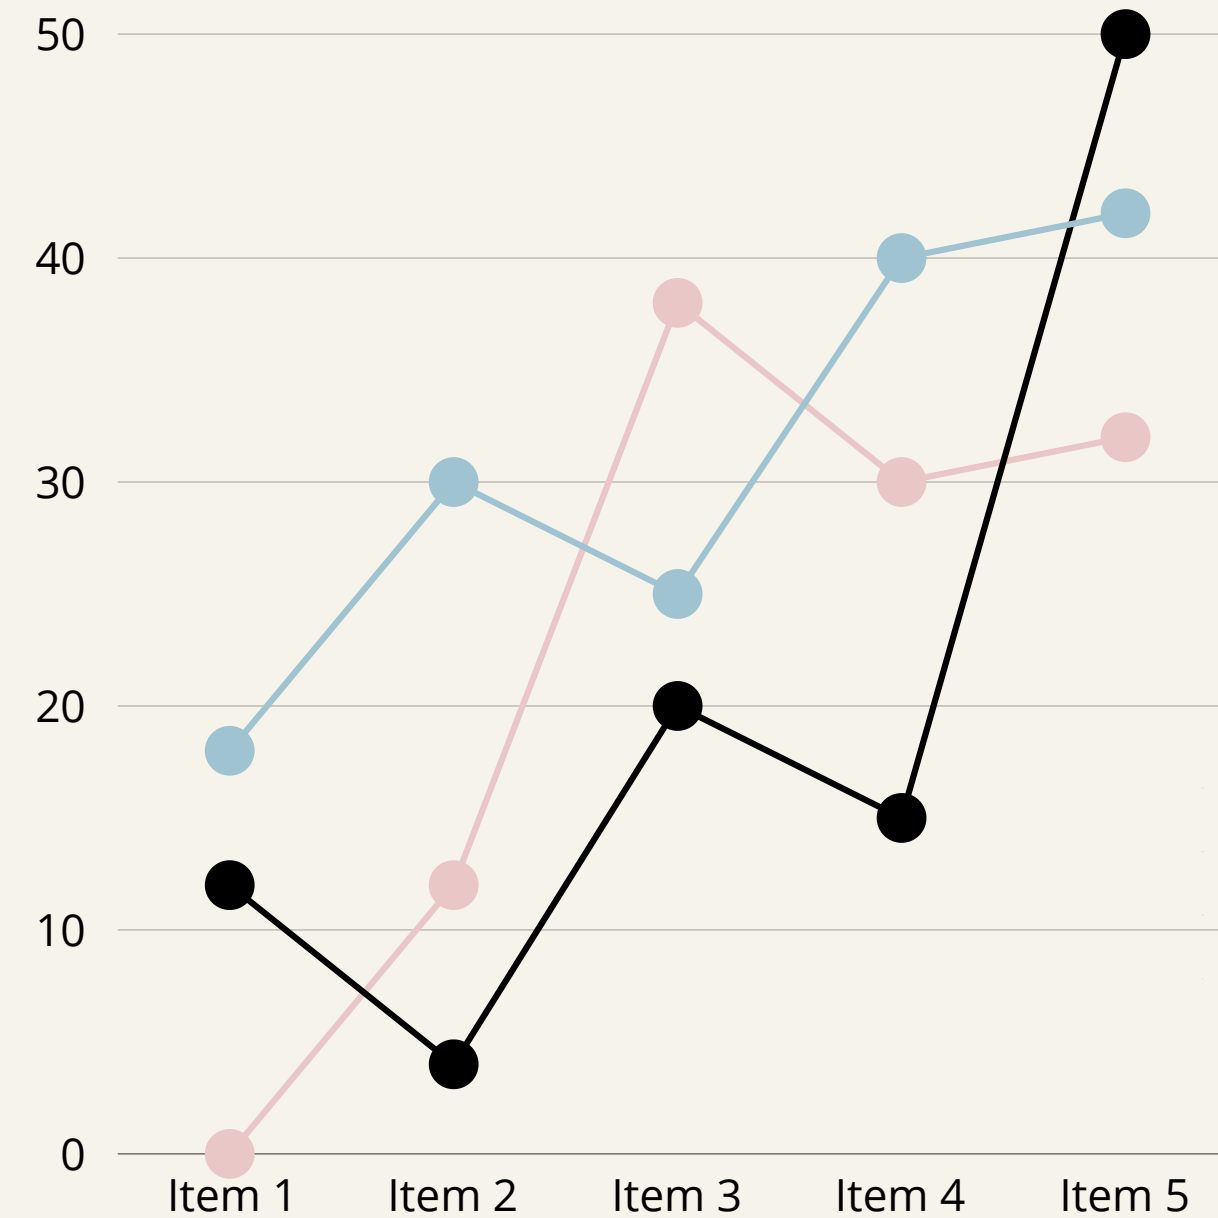

Wire framing and Prototyping

● Phase 4

Validation and verification

RESULT

The platform UI has been deployed successfully for demo purpose. "FoodNagar" can be launched officially after adding few updates and functions.

CONCLUSION

"FoodNagar" revolutionizes the dining experience by offering a sophisticated food delivery solution tailored for modern lifestyles. This intuitive app empowers users to browse a curated selection of restaurants and culinary options, ranging from local favorites, all conveniently accessible via a user-friendly mobile interface.

RECOMMENDATION

● Recommendation 1

Integrating the system with khalti/Esewa for customers to make payments using the system.

● Recommendation 2

·A feature to allow the admin message the clients within the system
